

PostCoder Professional data can be integrated into Resident Pro, licensed by Allies Computing using **Royal Mail** PAF. 1.7 million uk postcodes. 27 million addresses

Tick as appropriate

Street level £138.00

"Street level" will return a street address and you will need to enter the property details manually (i.e. the house number, or name). This is the most affordable of the 2 levels, and the latest Royal Mail PAF data is supplied to you annually.

Premise level £345.00

"Premise level" will return a street address, but will also display a list of valid property numbers (or property names) to select from. Due to the additional level of data, which is subject to change as premises change around the uk, you will receive a quarterly update of the Premise level PAF data.

Cheque enclosed £_____ (payable to "M D SMITH")

Please complete the End User Registration and Order Form and return with your cheque to:-

**M D Smith
SoftwareWorks Studio
4 Main Avenue
York
YO31 0RU**

INSTRUCTIONS

There are 3 icons next to each address screen on Resident Pro. Within any address screen, simply click on the little RED Postbox icon to lookup a post code, or to search an address. The correct customer address will be instantly retrieved, so you don't have to take risks with your customers.

Then, click on the WHITE icon to Paste the address. If you want to insert an extra line (for example, to manually type a department or other company description), left click on the ARROW to move the address downwards, or right click to move it upwards. Note: Street Level does not return premise names such as Company names.

End User Registration and Order Form

The End-User shall complete this End-User Registration Form and return it to Allies Computing Ltd or the Third Party Solutions Provider (as the case may be) within seven (7) days of entering into their Licence Agreement.
